There is a need to equip teachers with skills and knowledge that are essential for inculcating entrepreneurial values in students and guiding and monitoring their progress towards entrepreneurial career. This STTP aims at creating awareness among students about various facets of entrepreneurship while highlighting the merits of pursuing such a career option. The teachers/trainers who mentor the students to acquire the skills and behaviour will enable them to translate their dreams into a successful entrepreneurial venture. STTP provides inputs on process and practice of entrepreneurship development, communication and inter-personal skills, creativity, problem solving, achievement motivation, resources available and all aspects of entrepreneurship towards goal of 'Atmanirbhar Bharat'.

**Objectives**

- To create an awareness of the need and importance of entrepreneurship development.

The programme is designed with an aim to train and develop faculty members in the area of Entrepreneurship Development so that they can guide and motivate young students, particularly from pharmacy stream, to take up Entrepreneurship as their career.

To impart knowledge and develop skills in diverse training methods for the budding entrepreneurs.

Develop teachers with an entrepreneurial and professional mindset.

Make them aware of the facilitating financial & regulatory schemes for MSMEs.

Equip teachers with skills and knowledge that are essential for inculcating entrepreneurial values in students and guiding and monitoring their progress towards an entrepreneurial career.

To enable the teachers to guide, motivate and counsel the students towards entrepreneurial career and to make him capable of perceiving and exploiting successfully opportunities for enterprises.

To expose the teachers to the entrepreneurship development process and equip them to develop Vision, Strategy & Structure for Entrepreneurship Development Activities in their colleges.

To enhance & develop requisite skills in teachers to introduce Entrepreneurship oriented course in their colleges.

**Rationale**

Among several initiatives taken at various levels against the backdrop that entrepreneurship can be taught like any other discipline, the recognition of a notable one is the establishment of the Ministry of Skill Development and Entrepreneurship (MSDE), by the Government of India. The efforts will not only develop entrepreneurial and employability skills among the youth but will also deliver world class Learning and Management System (LMS) to equip potential as well as early stage entrepreneurs. Besides, Government's pan India programmes.

viz. 'Startup India', 'Stand-up India', 'Make-in India', 'Digital India', 'Swachh Bharat'... aim at further propelling entrepreneurship movement in India. Promotion of Entrepreneurship is necessary by training faculty to impart learning in entrepreneurship as well as counsel youths to adopt this discipline as a career.

**Justification**

The programme is designed to train and develop professionals in the area of Entrepreneurship Development so that they can act as 'Resource Persons' in guiding and motivating young students, particularly from science & technology and Pharmacy stream, to take up Entrepreneurship as their career. By this Training trainees can expose the participating members to the comprehensive entrepreneurship development process and equip them with the requisite skills, knowledge and competencies for effective initiation of goal oriented activities in their institutions.

**Outcome**

- Participants will demonstrate the ability to communicate effectively both orally and in writing.
- Participants will demonstrate knowledge of the legal and ethical environment impacting business organizations.
- Participants will demonstrate an ability to engage in critical thinking by analysing situations and selecting viable solutions to solve the problems.
- Graduates will demonstrate an ability to work effectively with others and know the business practices.

**Relevance**

The Entrepreneurship development programs conducted in Institutes are in accordance with our National policies to achieve a goal of 'Local to Global' and a self-reliant India.

Statistical Analysis is a study of collecting, analyzing, organizing, interpreting data. It plays a crucial role in every field of human activity. They are numerically expressed facts to represent and speculate the samples using logical reasoning. Statistics are the sets of mathematical equations that we used to analyze the things. It keeps us informed about, what is happening in the world around us. Statistics are important because today we live in the information world and much of this information's are determined mathematically by Statistics.

### Report:

Under the initiative taken by IQAC to promote the use of ICT enabled tools in teaching, Mr. G. K. Lohiya conducted the session on "Effective use of online platform in teaching learning" on dated 8th Dec 2018 in seminar hall of the college. He covered details that included

1. Google classroom
2. YouTube Videos
3. Moodle site creation
4. Word press
5. Flipped classroom
6. TPS constructor

He had given detailed demonstration on Google classroom creation, how to enrolled students in classroom. How to upload assignments and study material? He also briefed about the moodle platform but the participants limit is only 50 restricted to the moodle platform and hence most of the attendees showed less interest on the same. Few technical query like how to mark upload study material, how to give assignment, time bound assignments were asked by Ms. Pradnya Gondane. The queries were resolved through demonstration mode. Almost all faculties were decided use blended teaching learning method in their pedagogy. Mr. G. K. Lohiya added at the end that he is available at any time for individual queries and guidance if any faculty found difficulty in application and implementation of the contents.

Dear Sir,

This is here to invite you to conduct a two day training workshop on "Computer aided drug design" at Gurunanak College of Pharmacy on 3<sup>rd</sup> and 4<sup>th</sup> March, 2018. This workshop will be attended by postgraduate students from different pharmacy colleges of the region. The objective of the workshop is to make students understand the basics of 2D QSAR, 3D QSAR, Molecular docking, Pharmacophore mapping and virtual screening with the help of various software applications and animated models.

Please accept our invitation and give us your consent.

Thanking you in anticipation,

Truly yours,

**ABOUT THE COLLEGE**

Gurunank college of pharmacy Nagpur was established in 2004 under the aegis of The Sikh education society Nagpur, recognized by AICTE and affiliated to KJ Somaiya University Nagpur. The college has completed 14 years of dedicated and excellent service in the field of technical education. The college offers UG, PG and pharmacy. The college is well known for its technical excellence, modern facilities, record of performance with excellent results and enterprising students. The college is NAAC accredited as well as received NIRF ranking.

**ABOUT THE THEME**

Use of computational techniques in drug discovery and development process is rapidly gaining in popularity, implementation and appreciation. There is an ever growing effort to apply computational power to the combined chemical and biological space in order to streamline drug discovery, design, development and optimization. In biomedical arena, computer-aided or in silico design is being utilized to expedite and facilitate hit identification, hit-to-lead selection, optimize the absorption, distribution, metabolism/excretion and toxicity profile and avoid safety issues. Regulatory agencies as well as pharmaceutical industry are actively involved in development of computational tools that will improve effectiveness and efficiency of drug discovery and development process, decrease use of animals, and increase predictability. It is expected that the power of Computer aided drug design and development (CADD) will grow as the technology continues to evolve. CADD is being utilized to identify hits (active drug candidates), select leads from likely candidates for further evaluation, and optimize leads i.e. transform biologically active compounds into suitable drugs by improving their physico-chemical, pharmaceutical, ADMET/PPK (pharmacokinetic) properties. Therefore faculties of academic institutions as well as students are required to be updated and trained. It should be apparent that CADD has an immense potential in today's drug development era and knowledge as well as importance of computers in drug development process. Thus exposure and training to such recent advances to faculty and students can fulfill the requirements of Pharmaceutical industries.

**CONTENTS**

- Drug Development Process
- Modeling approaches in Drug Development
- Preliminary (SimCYP)
- Pharmacokinetics & Population approach (Phoenix WinNonlin, Non-Linear Mixed Effects Modeling)
- Clinical Development : Data Capture & Data Review
- Formulation Development
- GI absorption simulation ( GastroPlus)
- Model construction
- Parameter Sensitivity analysis
- Virtual trials (Fed vs fasted simulation)
- IVIVC & Biowaiver
